

Bluebeam Print Setup

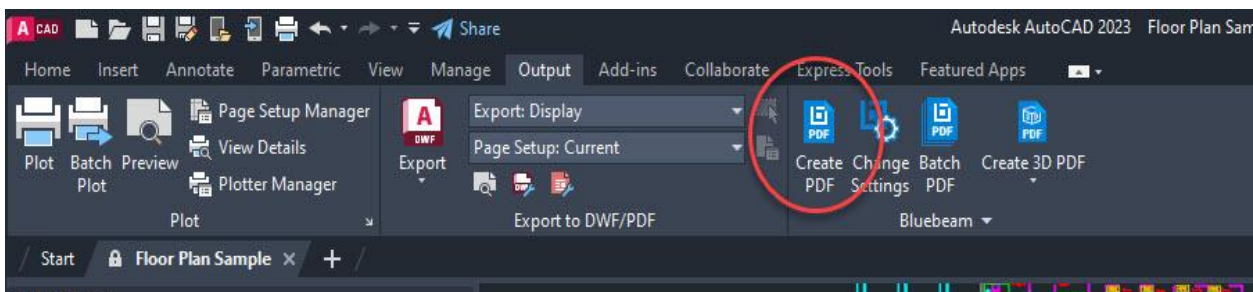

1. Ensure CAD workstations also have Bluebeam Revu 21 installed
2. In Revu, access the Bluebeam Revu Administrator:

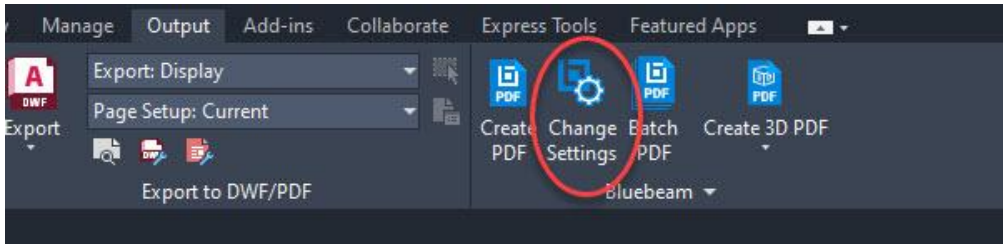

3. Make sure the AutoCAD plugin checkbox is enabled:

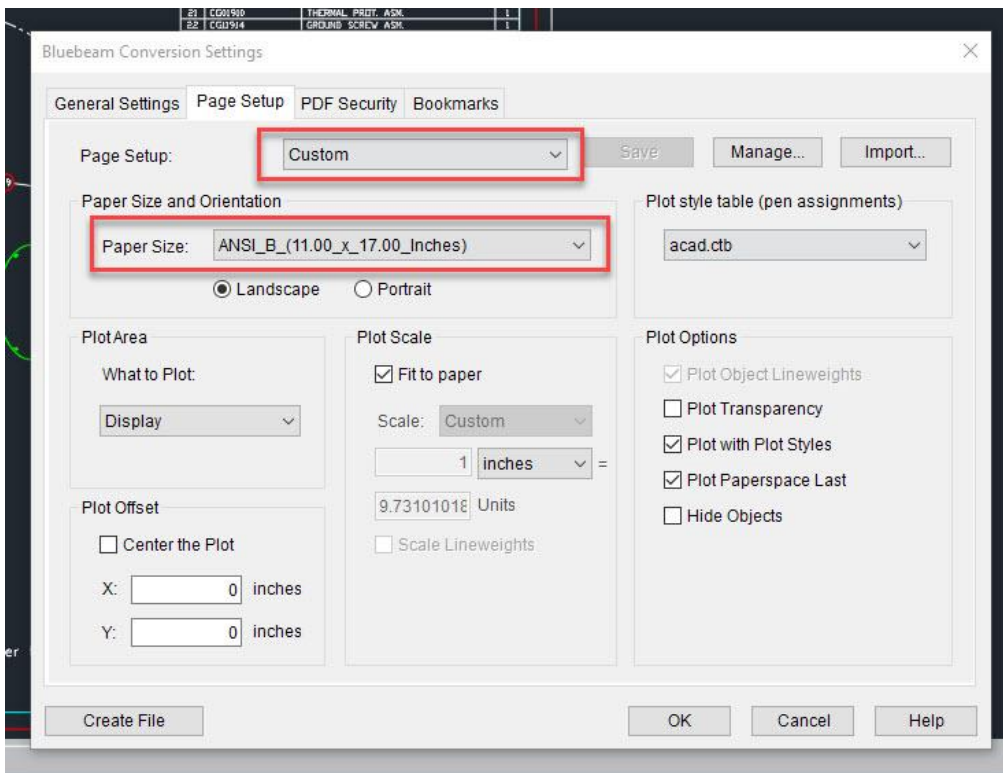

4. Use the Bluebeam plugin in AutoCAD to create the PDF:

5. Click the Change Settings button to access output options:

6. Choose the output settings according to the paper size to be used

Note: You can also use Batch PDF command to create PDF's from multiple CAD files at once!

AutoCAD
